Extra-curricular Clubs	£500
Year 6 Swimming Top-up	£250
Equipment Safety Check	£200
BDPSSA Membership	£45

Total expenditure £20,080

Impact on participation and attainment

Specialist coaching alongside teaching staff, ongoing CPD and support from PE leaders improved staff confidence and subject knowledge. Get Set 4 PE supported a broad and progressive curriculum, with clearer lesson progression and greater consistency in assessment. Together, these developments helped pupils access higher-quality PE experiences across the school.

Sports Leaders, lunchtime clubs and playground equipment increased activity at breaktimes and lunchtimes across all year groups, including among pupils who were previously less active. Pupil leadership provided opportunities for children to encourage others to join in. Adapted activities, inclusive equipment and small-group opportunities improved participation and confidence for pupils with additional needs, including pupils with SEND.

Healthy Living Week introduced pupils to activities including pickleball, Boogie Bounce, dance and a boomerang workshop, alongside first aid, dental health and food sessions. Pupils experienced sports they would not normally access, increasing enjoyment and participation. Pupil feedback showed high levels of enjoyment and greater awareness of physical activity and wellbeing, with some pupils identifying activities they wished to continue outside school.

Intra-school and inter-school competitions broadened opportunities to take part in competitive sport, and more pupils represented the school. Membership and transport supported access to events, while Sports Leaders helped with festivals. Pupils demonstrated improved teamwork, resilience and confidence. Celebration assemblies, newsletters and PE displays recognised participation and achievements, helping to maintain the profile of sport across the school.

Sustainability

Staff retain the subject knowledge and practical skills developed through training and collaborative coaching, enabling improvements in teaching to continue beyond the funding period. Shared curriculum resources will support continued progression and consistency. Sports Leaders will continue to support active lunchtimes, while playground and inclusive equipment will benefit future cohorts. Established competition pathways and links with local providers will support continued participation.

Healthy Living Week is held every two years. New activities will continue to be incorporated into the curriculum and enrichment programme, alongside sports days and opportunities to celebrate pupils' achievements.

Year 6 swimming and water safety

Measure	Outcome
Swim competently, confidently and proficiently over at least 25 metres	96%
Use a range of strokes effectively	96%
Perform safe self-rescue in different water-based situations	96%
