

A study of sculptures, collage, layering and pattern and how this is depicted in the work of Andy Goldsworthy

Key vocabulary

Image

Layer – placing materials on top of each other to create different effects.

Collage – layering various materials to create artwork.

Sculpture – hard materials which are used to make a 3D creation.

Pattern – A pattern is something that happens or appears in a regular and repeated way.

Key Questions:

What shapes can we create with natural materials?

Is this a repeated pattern?

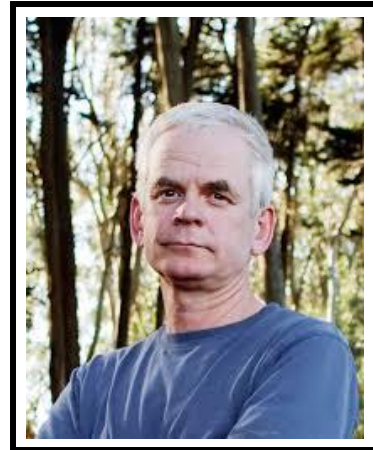

What repeated patterns can you see in sculptures made from natural materials?

Art Knowledge:

- To understand what a sculpture is and how they can be made.
- To look for patterns in sculptures and how they help when layering to create shape and colours.

Art skills:

- To layer materials to create new images.
- To use patterns to create shapes and colours for an image in a sculpture.
- To build sculptures which represent nature.
- To create repeating patterns within art.

Andy Goldsworthy

A British artist known for his sculptures and being an environmentalist.

Sculptures and Collages
